

Dr. Joe Slember joins DBM Cloud Systems to lead Engineering

BURLINGAME, CA – May 30, 2018 – DBM Cloud Systems Inc., the pioneer in intelligent Cloud data replication, today announced the appointment of Dr. Joe Slember to the position of Senior Vice President of Engineering.

“I’m excited to be leading development at a company that’s innovating and growing as quickly as DBM Cloud Systems. DBM is transforming the way organizations manage data across multi-Cloud and hybrid-Cloud environments,” said Joe Slember.

Joe joins DBM Cloud Systems after leading engineering and product development teams at Oracle, as Vice President of Engineering, where he managed and scaled large groups for the Oracle Cloud Infrastructure product family. Joe began his career at IBM Research and holds a PhD from Carnegie Mellon University.

“I am delighted that Joe has chosen to join our executive team. Joe has a proven track record of leading engineering, attracting world class talent and will be instrumental in delivering on our vision,” said Dixon Doll, Jr. CEO of DBM Cloud Systems.
